## **Ranaz takes steps to triple production of its nutritional bars in the first quarter of 2009**

- **Offer to purchase a 92,000 square foot building near BarTech (USA) accepted and another production line to be added**
- **Strategic location will also serve as the main US distribution centre for Ranaz products**

**Montreal, Quebec, August 11, 2008** – Ranaz Corporation (“Ranaz”) (TSX-V: RNZ), a company specialized in the manufacturing and marketing of protein and dietary supplements, announces that its offer to purchase a building has been accepted. The 92,000 square foot building occupies a 575,000 square foot lot near the facilities of BarTech (USA) in Michigan.

This acquisition will enable Ranaz to triple its production of nutritional bars in the near term thanks to the addition of a more efficient production line that will allow over 90 million bars to be produced annually. The building can accommodate another three production lines for a total capacity of 250 million bars.

“BarTech’s current facilities are presently operating at maximum capacity,” said Jean Bourassa-Marineau, President and Founder of Ranaz. “With this acquisition, we will soon be in a position to respond to the growing demand in the private brand segment and transfer production of our own bars to this new plant, generating substantial economies of scale. We plan to install the production line in the fourth quarter of 2008 so as to be fully operational as of the first quarter of 2009.”

The Company will also use the new facility as its main center for distribution of its products to the US market. “This acquisition has many advantages, including its strategic location enabling us to distribute our products more efficiently and at a lower cost, access to a large pool of qualified manpower, the potential for expanding the current facility to over 280,000 square feet and the building’s purchase price. These factors will all serve to make us more competitive in both the short and the long term,” added Mr. Bourassa-Marineau.

The cost of the building was \$2.5 million and will be financed by a commercial mortgage. The transaction is subject to the usual due diligence and the securing of the required financing. The Company expects to close the transaction within the next 90 days.

### **About Ranaz Corporation**

Ranaz is a corporation specializing in the manufacture and marketing of protein and dietary supplements. Its mission is to design, develop and market nutritional, protein and dietary supplements under its own corporate brands and concepts, such as Protidiet and ProtiLife, as well as under private labels.
